EXPERIENCE

Jupiter Money — Account Manager (Technical Account Management), Bengaluru Nov 2025 – Present

- Led end-to-end onboarding and implementation for salary account programs, onboarding 2000+ users and driving 300 monthly account openings with consistent 10% MoM growth
- Managed 200+ corporate clients across India as a single point of contact, ensuring smooth post-onboarding operations and timely issue resolution
- Conducted implementation calls with founders and HR teams, improving adoption, reducing onboarding delays, and enabling efficient rollouts
- Owned backend operations including account troubleshooting, configurations, and risk checks, leveraging system logs to identify issues and support faster resolution
- Collaborated closely with product, engineering, and risk teams and provided on-call rotations during critical issues, ensuring fast resolution and seamless user experience; also supported revenue growth through cross-sell and upsell initiatives

PROJECT

B2B Salary Account Onboarding Transformation

- Identified scalability challenges in the onboarding process which relied on manual calling and user-level intervention
- Designed and implemented a new B2B onboarding model by making HR teams the primary point of contact, enabling centralized user data collection and smoother onboarding
- Built a structured whitelisting workflow using HR-provided data, reducing onboarding friction and minimizing user errors
- Introduced a dedicated B2B segmentation to streamline user journeys, reducing failure rates compared to standard B2C onboarding
- Collaborated with product and engineering teams to implement AppsFlyer-based funnel segmentation aligned with B2B onboarding flows
- Enabled a self-serve onboarding approach via HR communication, removing dependency on outbound calling
- Maintained monthly onboarding output (300+ accounts) despite significant team size reduction, ensuring operational efficiency and business continuity
